

# DANIEL

I am an energetic designer and avid drone pilot with a passion for motion graphics. I enjoy coding in Python and Java, and have built my own Linux home server. I aspire to leave an impact in the design and corporate brand industry.

## EXPERIENCE

### Peer Tutor 2023–Current

Tutored George Brown students on printing and other design subjects in the campus' computer and print lab, exercising my ability to communicate knowledge on design.

### Accessibility Tutor 2023–2024

Tutored students on multiple design subjects for George Brown College, exercising my knowledge on design theory and history while being able to explain it comprehensively.

### Sobeys 2020–2022

Designed visually appealing ready-to-cook meals while strictly adhering to health and safety guidelines, teaching me how to adapt my design work to strict environments.

## VOLUNTEERING

### ADCC Judge's Assistant August 2024

Presented various award submissions for ADCC judges to examine and award, learning the minute details that make design stand out.

### BSI Summer Charette July 2023

Collaborated with architects, and engineers to design a multi-year plan to handle a growing ecological hazard in the Carribean, developing my teamwork and communication abilities.

### BSI Design Charette February 2023

Collaborated with a design team to raise awareness of the Indigenous history of a town on the Ottawa River with a nuclear reactor.

## EDUCATION

### George Brown College 2022–2025

Graphic Design  
Advanced Diploma
